Key Project Metrics

- 34 rail cars;
- 60 elevators;
- 41 escalators;
- 883 CCTV cameras;
- 1,912 passenger announcement speakers;
- 49 passenger information displays;
- 133 fare gates;
- 54 fare vending machines;

Key Project Metrics *(Cont'd)*

- 6.6 million person-hours of work;
- Approximately \$800 million in contracts awarded to local suppliers; and,
- Once completed, more than 3,200 person-years of employment of trades will be generated.

Key Activities to Monitor

- Rideau Station;
- Western stations completion;
- End-to-end systems verification (all systems);
- Installation of fare gates and ticket vending machines at all stations;
- Multiple trains operating in full CBTC mode along the eastern alignment;

Key Activities to Monitor *(Cont'd)*

- Vehicle testing along the western alignment, and in the tunnel;
- End-to-end vehicle testing from Blair Station to Tunney's Pasture Station;
- Full fleet operational testing from Blair Station to Tunney's Pasture Station in full CBTC mode; and,
- Ongoing monitoring of RTG's schedule and continued adherence to November 2, 2018 RSA.
